

XRT Pathfinder

STAFF & EDUCATOR TRAINING KIT

August 7, 2026 / 9:00 AM - 12:00 PM / Black Koffee

Three staff learners. Two trainers. One practical mission: equip educators to lead AI, XR, STEM & STEAM, Reading, and Math through the KNOW / DO / BE progression.

KNOW	DO	BE
Foundations and mental models	Tools, practice, and project design	Identity, voice, and teach-back

KIT CONTENTS

- 1. Facilitator run sheet and pre-flight checklist
- 2. Learner mission worksheet and integration triangle
- 3. AI-assisted lesson planning scaffold
- 4. XR safety and rotation protocol
- 5. Teach-back cards and feedback form
- 6. Competency sign-off and certificates
- 7. Partner pathways, contingency plans, and follow-up

Facilitator Run Sheet

Use the visible timer. Protect the teach-back block. Give a two-minute warning before every transition.

START	PILLAR	BLOCK	DELIVERABLE
9:00	KNOW	Welcome + three pillars	Names, hopes, KNOW / DO / BE
9:15	KNOW	AI fundamentals	Planning, differentiation, formative checks
9:30	KNOW	VR / AR / MR	Definitions, teen safety, motion guardrails
9:45	KNOW	Integration triangle	Topic -> Reading anchor -> Math check
10:00	DO	AI lesson build	Three-day mini-unit
10:15	DO	Quest rotation	Five minutes each + debrief
10:30	DO	Integrated mini-project	30-minute learner activity
10:45	DO	Share-out	90 seconds + strength + bump-up
11:00	BE	Educator identity	Private written reflection
11:20	BE	Teach-back	Five minutes each
11:40	BE	Q&A; + pathways	Support and partner next step
11:50	BE	Certification	Commitment, certificates, photo

8:30 AM Pre-Flight

- [] Walk venue; confirm seating, outlets, projection, and quiet XR corner
- [] Verify Wi-Fi, learner devices, AI tool logins, and backup recording
- [] Charge and clean both Quest headsets; stage liners and lens wipes
- [] Test projector, screen share, speaker, and ambient slide
- [] Place agenda, name card, worksheets, feedback form, and teach-back card at each seat
- [] Stage certificates, partner resource cards, refreshments, and water
- [] Complete 8:55 trainer huddle: roles, timing, absence plan, learner support

TRAINER ASSIGNMENT

ROLE	PRIMARY RESPONSIBILITY	NAME / CONTACT
Tech Lead	Content, AI/XR setup, accuracy, opening and closing	
Jr Lead	Timing, logistics, hospitality, feedback, roster	
Partner	Pathway story, resource cards, first-session mentor	Social-Tech-Trade Sessions

Venue notes

Learner Mission Worksheet

Learner: _____ Role: _____ Date: _____

KNOW - Explain the landscape

In your own words, distinguish AI, VR, AR, and MR. Name one safe educator use for each.

DO - Build the integration triangle

STEM / STEAM TOPIC	READING ANCHOR	MATH CHECK

Write the 30-minute activity flow. Include the AI or XR hook, learner action, and evidence of understanding.

BE - Ambassador reflection

A teen I want to reach is... / The educator I want to be is... / What I carry is... / What I will lay down is...

AI-Assisted Lesson Planning Scaffold

Prompt starter: Generate a three-day mini-unit on [topic] for ages 14-17 that includes a Reading passage, two Math checks, differentiation, and a responsible AI note.

DAY	LEARNING TARGET	LEARNER EXPERIENCE	READING + MATH EVIDENCE
1			
2			
3			

Educator edit check

- ☐ I verified accuracy and age appropriateness
- ☐ I removed personal or sensitive learner data
- ☐ I added differentiation for emerging and advanced learners
- ☐ I can explain why each AI suggestion belongs in the lesson

Final lesson notes

XR Safety & Rotation Protocol

One learner in the headset, two observing. Five-minute cap per learner. Stop immediately for discomfort.

BEFORE	DURING	AFTER
Clear boundary; check fit; explain stop signal; confirm consent	Chaperone continuously; keep cable-free; monitor balance and comfort	Remove slowly; sanitize liner; record one wow moment; debrief Reading + Math hooks

- [] Play space cleared and guardian protocol understood
- [] Headset charged, tracking stable, and lenses clean
- [] Learner knows how to pause and ask for help
- [] Motion discomfort check completed
- [] Debrief captured: What happened? What did you notice? What could learners measure or read?

Rotation observations

LEARNER	WOW MOMENT	SAFETY / SUPPORT NOTE
1		
2		
3		

Teach-Back Cards

Cut on the borders. Draw one card per learner. Five-minute maximum.

AI LESSON PROMPT

Teach a colleague how to turn a topic into a safe three-day AI-assisted mini-unit.

Opening: _____ Key example: _____ Closing: _____

XR SAFETY PROTOCOL

Teach a colleague how to prepare, supervise, stop, and debrief a Quest experience.

Opening: _____ Key example: _____ Closing: _____

INTEGRATION TRIANGLE

Teach a colleague how Topic -> Reading Anchor -> Math Check turns technology into learning.

Opening: _____ Key example: _____ Closing: _____

Peer feedback rule

One strength: _____ One precise bump-up: _____

Assessment, Feedback & Sign-Off

#	COMPETENCY	TECH LEAD	JR LEAD	DATE
1	Explains AI, VR, AR, and MR	[]	[]	
2	Drafts a three-day AI-assisted lesson	[]	[]	
3	Supervises a Quest XR experience	[]	[]	
4	Designs a STEM / Reading / Math activity	[]	[]	
5	Delivers a five-minute teach-back	[]	[]	
6	Writes an Ambassador identity reflection	[]	[]	
7	Receives completion certification	[]	[]	

Learner confidence and feedback

AI-assisted lesson confidence (1-5): ____ XR supervision confidence (1-5): ____

Which moment surprised you most?

What would you change about the flow?

What support do you want during your first 30 days?

CERTIFICATE OF COMPLETION

XRT Pathfinder Staff & Educator Training

Awarded to

for completing the August 7, 2026 training at Black Koffee and demonstrating readiness across KNOW / DO / BE.

TECH LEAD	JR LEAD	DATE
_____	_____	_____

Build the future. Lift the Kingdom. Lead with technology.

Contingencies, Partner Pathway & Follow-Up

CONDITION	IMMEDIATE RESPONSE
Wi-Fi failure	Use recorded AI demo, paper prototype, and observer XR flow.
Quest failure	Use browser WebXR; preserve Reading and Math objectives.
One trainer absent	Defer one share-out, remove ambient media, protect teach-back.
Learner discomfort	Offer quiet corner, five-minute reset, or written teach-back.
Behind by 10 minutes	Compress one DO block; never remove identity or teach-back.

SOCIAL-TECH-TRADE SESSIONS

Optional welcome, pathway story, apprenticeship resources, first-live-session mentor, joint capstone showcase, and trade-site field trip.

48-HOUR FOLLOW-UP

- [] Add graduates to the Pathfinder Educator Roster within 24 hours
- [] Send certificates, syllabus, and feedback summary within 48 hours
- [] Schedule a 30-minute office-hours huddle within 14 days
- [] Pair each educator with a mentor for the first live teen session
- [] Invite graduates to the alumni and peer-support channel
